

Health efx Direct

Interactive Digital Way Finding

HEALTHefx Direct is an interactive wayfinding solution which allows your visitors to navigate their destinations quickly and easily. Placing *HEALTHefx Direct* at an entrance, lobby or high-traffic area helps identify current location and provide access to information and directions for your facilities, departments, services and personnel. Using documents centric to your facility, our team of designers combine them into an interactive map that guides users to their destination and helps reduce their anxiety.

Features:

- ✓ Unlimited locations, each with its own custom map
- ✓ Multiple styles of animated lines which users define themselves using the PowerPoint multipoint line tool
- ✓ User-definable sponsor logos tied to each location
- ✓ User-definable video clips tied to each location
- ✓ Email/SMS feature lets users enter email address or cell phone number; automatically delivers customized directions for each location, including JPEG map images
- ✓ Gallery of predefined wayfinder templates in both landscape and portrait formats
- ✓ Screensaver mode allows users to create custom content to be displayed when the touchscreen is inactive
- ✓ Ease traffic congestion at major points of access
- ✓ Increased efficiency of guest services
- ✓ Promote areas of interest at your facility

Options:

- ✓ Broadcast-quality graphics and animations
- ✓ Customized look and feel / portrait or landscape
- ✓ Real-time data tickers for news and weather
- ✓ Integration with web portal for building and managing multi-location network
- ✓ Remote monitoring and support from the network operation center

Applications:

- ✓ Facility Lobbies
- ✓ Strategic Health System Campus Locations
- ✓ Common Areas
